

## SILLY HOUSE CAKE PATTERN

This cake will be a hot topic at any house warming party or any special event in need of a fun and colorful house shaped cake.

After cutting triangles to finish the roof overhang, use the "excess" cake bits (shown in brown) to make house accessories. If you visit the Hurry Up, Cakes! web site, you'll see that I used them to make an extra room on the house, a shrub, and a chimney.

The provided measurements assume that you're using 8" cake pans. If you're using another size, adjust accordingly.
